

Auberle Landscaping Program

An Employment Opportunity

Auberle's Landscaping Program trains young people in all aspects of professional landscaping and lawncare services. Young people are hired to work alongside a professional landscaping foreman to maintain commercial and business properties. This is a paid position with opportunities to advance and become a crew leader. Participants gain experience working with the customer and securing new properties to maintain. This program offers employment opportunities year-round.

What Are The Benefits And Who Will Hire Me?

Auberle has partnerships with local businesses including Massaro Properties, a real estate company, who is interested in expanding this program. Youth who successfully complete the program will have tangible work experience, references and on-the-job training in professional landscaping. Auberle will help connect you to local employers in the landscaping industry following completion of the program.

We Offer Opportunities to Work on Special Projects

Examples of Auberle landscaping projects include designing and constructing an outdoor classroom that features a fishpond, 20 ft waterfall and amphitheatre seating area. The program is partnering with The Pittsburgh Botanic Garden to design a walking trail on their new 460-acre site.

Requirements:

- You must be 16 years of age or older
 - You must have a genuine interest in a landscaping and lawn care services.
-
