

Auberle OSHA Certification

A 10-Hour Construction Industry Certification

The Auberle OSHA 10-Hour Construction Trade Certification provides training for entry-level workers in recognizing health hazards and using proper safety techniques in the construction workplace. Students also receive information regarding construction workers' rights. The program is completed entirely online and allows students to work at their own pace to finish. Students will have access to computers and receive direct support.

What Are The Benefits And Who Will Hire Me?

Workplace safety training is a requirement to work for any construction company. After you complete the OSHA Certification, you will have a wallet ID card to prove to employers that you have the necessary safety training. This certification gives you an advantage in the job market.

Requirements:

- You must be 16 years of age or older.
 - You must have a genuine interest in the construction field.
 - You must complete the online course within 6 months of enrollment.
-
